To Whom it May Concern

RE: Reference for Executive Furnishings, Inc.

We have been working with Executive Furnishings since 2007, most recently on our newly constructed luxury apartment community, The Residences at Rivers Edge in Medford, MA. For this high-end community with extensive public spaces we needed to ensure that the furnishings, in addition to the architecture, conveyed a sense of superior quality and luxuriousness – unfortunately it needed to be done on a bargain basement budget. Executive Furnishings to the rescue!

Aidan Barry, Matt Tsopas and their team worked closely (and tirelessly) with the interior designers and the ownership team to ensure that we could achieve the look we wanted and still meet our budget requirements. I know that Matt spent countless hours searching for the perfect pieces and the end product is a true testament to their dedication and commitment to helping meet our goals. Not only did we end up with stunning furnishings, artwork and accessories – it was all completed under budget.

Executive Furnishings commitment to the project did not end with the furniture delivery. They provided excellent guidance to our management and maintenance staff on how to maintain the furniture and have continued to be helpful in troubleshooting when the inevitable stains have occurred. I am confident that even in years to come when we may need replacement pieces or parts that Executive Furnishings will be there to assist.

Although the current economic climate has prevented us from starting any new deals recently, I know that as soon as we begin one I will be calling Matt and Aidan to get them on board, knowing full well that having them as part of our team will guarantee a successful project.

Sincerely,

Heather N. Boujoulia
Development Manager
