Milford, NH

Before & After

Aidan,

Thank you so much for the lovely flowers you sent! They're absolutely beautiful and are gracing our center island in the Creative Lab.

It has been our pleasure working with you and the Executive Furnishings team over the past year. As you know, over the years Cirtronics has employed the assistance of several other office furnishing companies. I'm pleased to say our experience with Executive Furnishings has been far superior in every way. Without going into great detail please know that the organization as a whole is thrilled with the functionality and aesthetic appeal of our newly renovated office space and wish to thank YOU for not only providing us with great products and service but also minimizing the level of pain during the phase-in process. It is Cirtronics' philosophy to serve not only our customers but our suppliers as well. We are delighted to share our high recommendations of Executive Furnishings with others and of course welcome you to tour clients through our (very attractive) facility.

On behalf of Cirtronics Corporation I wish to thank you and your team for your contributions to the success of our project. We look forward to working with you in the future.

With Best Regards,

*Pam Campman
Cirtronics Corporation*
