Dear Aidan:

Once again, thank you for providing outstanding service on our recent furniture installation in downtown Boston. **I can always count on your team to make sure the project comes together seamlessly.**

Matt Tsopas was instrumental in helping select furniture options that complemented the design style for the project along with a sensible budget. Nancy Brunet made sure we were properly equipped with the necessary finish samples and even helped us stay organized the day of the install. **They are two of the very best in the industry.**

Thank you again. I look forward to working with you on future projects.

Sincerely,

Laura E. Malloy, Owner
